Dental savings plans offer an affordable alternative to traditional insurance. Since the rates are pre-determined, members always know what the cost of any treatment will be. Typical savings are 25-65% off the dentist's customary fees.

How Does It Work?

01

Gain Access to our Dentist Network

Dentists within the plan network have agreed to provide deep discounts (25-65%) on most dental procedures and members may visit any of the dentists on our plan.

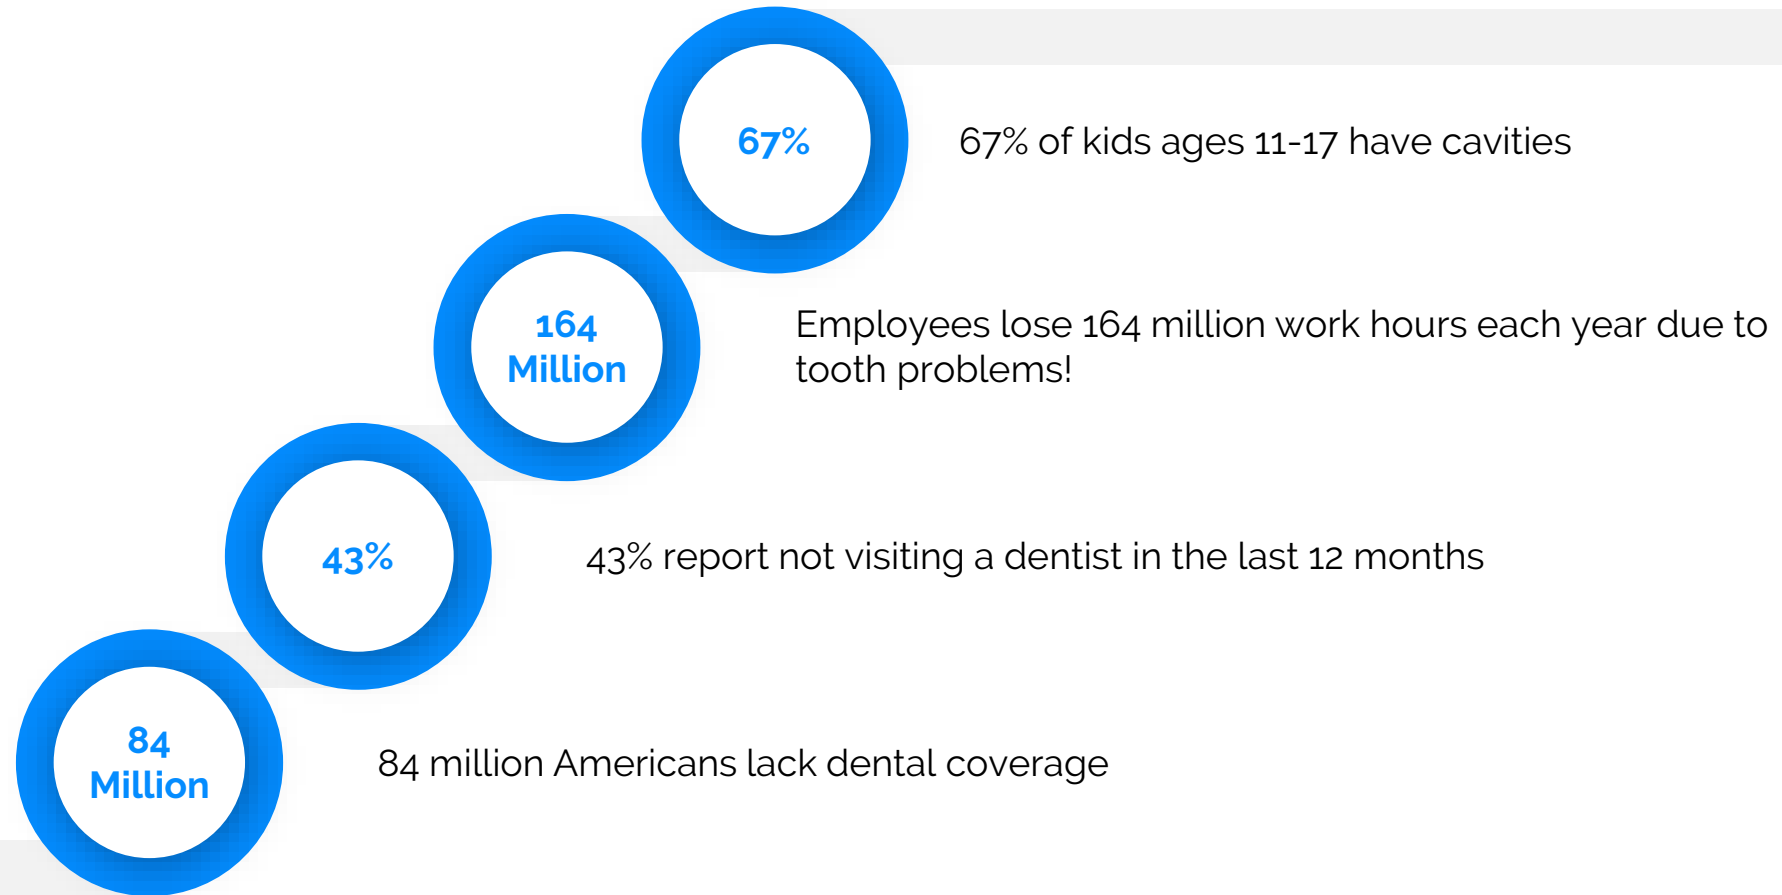

02

Smile & Save

Plans are activated within 24 hours from time of purchase and can be used immediately upon activation, even for more extensive procedures. There is no waiting period or annual spending limit, so members can visit the dentist as often as they like. Our plans offer additional savings on prescriptions, vision, hearing care and more.
